

CHARCOAT IC Primer SAFETY DATA SHEET 2024

Published: Jan 2024

SECTION 1: IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

- 1.1 Product Identifier:** CharCoat IC Primer
- 1.2 Relevant identified uses of the substance or mixture and uses advised against**
- 1.2.1 Relevant Uses:** Primer for Silicon Rubber Coating
- 1.2.2 Uses Advise Against:** None Known
- 1.3 Details of the Supplier of the Safety Data Sheet**
- Company Address:** CharCoat Passive Fire Protection
Suite 301 – 220 Brew Street
Port Moody BC V3H 0H6 Canada
- Address Enquiries:** Email: mail@CharCoat.com
- Technical Information** Internet: www.charcoat.com
- 1.4 Emergency Contact Number:** Telephone: +1 604 941 1001 (24 Hours)

SECTION 2: HAZARDS IDENTIFICATION

- 2.1 Classification of the Substance or Mixture:** No classification.
- 2.2 Label Elements**
- Hazard Statements:** Dimethylpolysiloxane with functional groups and auxiliaries for additional cross linking.
- Highly flammable and damaging to health. May cause lung damage if swallowed. Flammable and Toxic.
- Silanes and Siloxanes with functional groups and auxiliary products in solvent. Substances representing health hazard.
- 2.3 Other Hazards**
- Environmental Hazards:** Flammable. Forms explosive mixture with air.
- Other Hazards:** R-Phrase: R10R20R36/37
Description: Flammable, Harmful by inhalation.
Irritating to eyes and respiratory system.

SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

Product Type: The product is a mixture.

Ingredients (Specific)	% by Weight	CAS NUMBER
Titanium Tetrabutanolate	14	5593-70-4
Tetraethyl Silicate	7	78-10-4
Toluene	15	108-88-3
C7-C10 Isoalkanes	64	64742-49-0

SECTION 4: FIRST AID MEASURES

4.1 Description of First Aid Measure

General Information:	Change clothing, seek medical attention.
Inhalation:	Move to fresh air, Keep the patient lying down and in a restful position. If breathing has stopped give artificial respiration, Seek medical advice.
Skin Contact:	When in contact with skin, wash with plenty of soap and water. Remove contaminated clothing. Seek medical advice.
Eye Contact:	Rinse cautiously (irrigate) with water for 10-15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Seek medical advice/attention.
Ingestion:	Get medical advice. Do not induce vomiting. Danger of aspiration.

4.2 Most important Symptoms and Effects, both Acute and Delayed:

Not applicable.

4.3 Indication of any immediate medical attention and special treatment needed:

Treat symptomatically.

SECTION 5: FIRE FIGHTING MEASURES

5.1 Extinguishing Media

Suitable Extinguishing Media:

Flammable. Suitable extinguishing media are: Dry powder, alcohol resistant foam, and carbon dioxide. Use respiratory protection independent of re-circulated air.

Extinguishing Media that must not be used:

Full water jet.

5.2 Special Hazards arising from the Substance or Mixture:

Flammable, forms explosive mixture with air.

5.3 Advice for Fire Fighters:

Use self-contained breathing apparatus. Wear gloves, goggles, and protective overalls. Fire residues and contaminated firefighting water must be disposed of in accordance within the local regulations.

SECTION 6: ACCIDENTAL RELEASE MEASURES

6.1 Personal Precautions, Protective Equipment, and Emergency Procedures:

Keep unprotected persons away. Wear personal protective suit. Do not eat or drink whilst handling this material. Do not breath vapor, wear gas mask filter A during prolonged exposure. Wear solvent proof gloves and goggles that provide full eye protection.

6.2 Environmental Precautions:

Do not discharge into the drains/surface waters/groundwater, sewer system or in-shore waters. Observe local by-laws.

6.3 Methods and Material for Containment and Clean-up:

Absorb mechanically with a liquid binding material such as diatomaceous earth and dispose of according to regulations. Keep away from ignition sources.

SECTION 7: HANDLING AND STORAGE

7.1 Precautions for Safe Handling:

Use only in well-ventilated areas, gloves required. After worktime and before work breaks, the affected skin areas must be thoroughly cleaned. Use barrier skin cream.

7.2 Conditions for Safe Storage, including any Incompatibilities:

Keep only in original container in a well-ventilated area. Do not store together with food and animal food/diet. Keep container tightly closed. Store away from naked flames. As a precaution against fire and explosion, cool endangered containers with water. It forms explosive mixture with air.

7.3 Specific End Use(s):

See product use, Section 1.2.

SECTION 8: EXPOSURE CONTROLS / PERSONAL PROTECTION

8.1 Control Parameters

Ingredients with occupational exposure limits to be monitored (GB): Not applicable.

8.2 Exposure Controls

Additional advice on System Design:	Ensure adequate ventilation on workstation. Do not smoke when handling this material. Observe standard industrial hygiene practices with this material.
Eye Protection:	Safety glasses. (EN 166:2001).
Hand Protection:	0,7mm Butyl rubber, >480 min (EN 374). The details concerned are recommendations. Please contact the glove supplier for further information.
Skin /Eye Protection:	Avoid direct contact with skin and eyes.
Other:	Avoid contact with eyes and skin. Do not breathe vapor/spray.
Respiratory Protection:	Breathing apparatus in the event of aerosol or mist formation. Short term: filter apparatus, combination filter A-P2. (DIN EN 14387).
Thermal Hazards:	Not applicable.
Delimitation and monitoring of the environmental exposition:	Comply with applicable environmental regulations limiting discharge to air, water, and soil.

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

9.1 Information on basic physical and chemical properties:

Form	Liquid
Color	Yellowish
pH-value	Not Determined
pH-value [1%]	Not Determined
Boiling Point	142 °C at 1013 kPa
Flash Point [°C]	9°C
Flammability (solid, gas) [°C]	Flammable
Lower Explosion Limit	Not Applicable
Upper Explosion Limit	Not Applicable
Vapor Pressure/Gas Pressure [kPa]	Not Determined

Density [g/ml]	0.756gm/cubic cm at 20 °C
Ignition Temperature	420°C
Bulk Density [kg/m³]	Not Applicable
Partition Coefficient [n-octanol/water]	Not Determined
Relative Vapor Density Determined in Air	Not Applicable
Evaporation Speed	Not Applicable
Melting Point [°C]	Not Determined
Autoignition Temperature [°C]	Not Applicable
Decomposition Temperature [°C]	Not Determined
Other Information:	None

SECTION 10: STABILITY AND REACTIVITY

10.1 Reactivity:	If stored and handled in accordance with standard industrial practices, no hazardous reactions are known.
10.2 Chemical Stability:	At temperatures above 150 °C a small amount of formaldehyde is released through oxidation.
10.3 Possibility of Hazardous Reactions:	Ensure adequate ventilation. As a precaution against fire and explosion, cool endangered containers with water. Forms explosive mixtures with air.
10.4 Conditions to Avoid:	See Section 7.
10.5 Incompatible Materials:	Not applicable.
10.6 Hazardous Decomposition Products:	Not applicable.

SECTION 11: TOXICOLOGICAL INFORMATION

11.1 Information on Toxicological Effects	According to literature, aliphatic hydrocarbons are slightly irritating to the skin and mucus membranes. They also have a skin drying and narcotic effect. If lungs are directly affected, inflammation of lungs may occur. Toluene irritates the mucus membranes, slightly irritates the skin and is narcotic. Kidney and bone marrow damage were also described.
Mutagenicity	Does not contain a relevant substance that meets the classification criteria. Based on the available information, the classification criteria are not fulfilled. Toxicological data of complete product are not available.
Reproduction Toxicity	Does not contain a relevant substance that meets the classification criteria. Based on the available information, the classification criteria are not fulfilled. Toxicological data of complete product are not available.
Carcinogenicity	Does not contain a relevant substance that meets the classification criteria. Based on the available information, the classification criteria are not fulfilled. Toxicological data of complete product are not available.
Aspiration Hazard	Does not contain a relevant substance that meets the classification criteria. Based on the available information, the classification criteria are not fulfilled. Toxicological data of complete product are not available.
General Remarks	None

SECTION 12: ECOLOGICAL INFORMATION

12.1 Toxicity:	Do not introduce large amounts into purification plants, waterways, or soil.
12.2 Persistence and Degradability	
Behavior in Environment Compartments:	Not determined.
Behavior in Sewage Plant:	Not determined.
Biological Degradability:	Not determined.
12.3 Bio Accumulative Potential:	Accumulation in organisms is not expected.
12.4 Mobility in Soil:	Spillages may penetrate the soil causing ground water contamination.
12.5 Results of PBT and vPvB Assessment:	Based on all available information not to be classified as PBT or vPvB respectively.
12.6 Other Adverse Effects:	None known.

SECTION 13: DISPOSAL CONSIDERATIONS

13.1 Waste Treatment Methods	Dispose according to regulations by incineration in special waste incinerator. Small quantities maybe disposed of in a domestic waste incinerator. Observe local by-law.
-------------------------------------	--

SECTION 14: TRANSPORT INFORMATION

14.1 UN number	U.N. No. 1993 Hazard Class 3 Warning: Flammable / Harmful
Inland navigation (ADN)	Not Applicable
Marine transport in accordance with IMDG	Not Applicable
Air transport in accordance with IATA	Not Applicable
14.2 UN proper shipping name	
Transport by land according to ADR/RID	Flammable / Harmful
Inland navigation (ADN)	Flammable / Harmful
Marine transport in accordance with IMDG	As above
Air transport in accordance with IATA	As above
14.3 Transport hazard class(es)	
Transport by land according to ADR/RID	Flammable / Harmful
Inland navigation (ADN)	Class 3
Marine transport in accordance with IMDG	Class 3
Air transport in accordance with IATA	Class 3
14.4 Packing group	
Transport by land according to ADR/RID	Not Applicable
Inland navigation (ADN)	Not Applicable
Marine transport in accordance with IMDG	Flammable / Harmful
14.5 Environmental hazards	
Transport by land according to ADR/RID	U.N. No. 1993
Inland navigation (ADN)	No
Marine transport in accordance with IMDG	No
Air transport in accordance with IATA	No
14.6 Special precautions for user	Relevant information under Section 6 to 8

SECTION 15: REGULATORY INFORMATION

15.1 Safety, health, and environmental regulations/legislation specific for the substance or mixture

EEC Regulations:	1991/689 (2001/118); 1999/13; 2004/42; 648/2004; 1907/2006 (REACH); 1272/2008; 75/324/EEC (2008/47/EC); 453/2010/EC; (EU) 2015/830
Transport Regulations:	DOT-Classification, ADR (2015); IMDG-Code (2015, 37. Amdt.); IATA-DGR (2016).
National Regulations (GB):	EH40/2005 Workplace exposure limits (Second edition, published December 2011). CHIP 3/ CHIP 4

SECTION 16: OTHER INFORMATION

16.1 Hazard Statements (Section 3): H315 Causes skin irritation.

16.2 Abbreviations & Acronyms:

ADR = Accord européen relatif au transport international des marchandises Dangereuses par Route
 RID = Règlement concernant le transport international ferroviaire de marchandises dangereuses
 ADN = Accord européen relatif au transport international des marchandises dangereuses par voie de navigation intérieure
 CAS = Chemical Abstracts Service
 CLP = Classification, Labelling and Packaging
 DMEL = Derived Minimum Effect Level
 DNEL = Derived No Effect Level
 EC50 = Median effective concentration
 ECB = European Chemicals Bureau
 EEC = European Economic Community
 EINECS = European Inventory of Existing Commercial Chemical Substances
 ELINCS = European List of Notified Chemical Substances
 GHS = Globally Harmonized System of Classification and Labelling of Chemicals
 IATA = International Air Transport Association
 IBC-Code = International Code for the Construction and Equipment of Ships carrying Dangerous Chemicals in Bulk
 IC50 = Inhibition concentration, 50%
 IMDG = International Maritime Code for Dangerous Goods
 IUCLID = International Uniform Chemical Information Database
 LC50 = Lethal concentration, 50%
 LD50 = Median lethal dose
 MARPOL = International Convention for the Prevention of Marine Pollution from Ships
 PBT = Persistent, Bio accumulative and Toxic substance
 PNEC = Predicted No-Effect Concentration
 REACH = Registration, Evaluation, Authorization and Restriction of Chemicals
 TLV®/TWA = Threshold Limit Value – Time-Weighted Average
 TLV®STEL = Threshold Limit Value – Short-Time Exposure Limit
 VOC = Volatile Organic Compounds
 vPvB = very Persistent and very Bio accumulative

16.3 Other Information

Classification Procedure: None

Modified Position: Section 6 deleted: Prevent spread over a wide area (e.g. by containment or oil barriers).
